Skills

- Python
- Javascript
- SQL
- Java
- HTML
- CSS
- Django
- Docker
- React
- Redux
- Nginx
- Git

Projects

eBay clone - <http://www.laurivaananen.com:8001/>

Source - <https://github.com/laurivaananen/Huutokauppa>

- Developed an online auction where users can sell and bid on items, similar to eBay
- Optimized layout to work on all devices and screen sizes
- Programmed with Flask, Postgresql and jQuery and deployed with nginx and Docker

Recipe App - <http://www.laurivaananen.com/cooking/>

Source - <https://github.com/laurivaananen/RecipeApp>

- Single-page application where users can share recipes with each other
- Modern, responsive mobile friendly interface
- Backend built using Django REST framework and postgresql
- Frontend built using React and Redux

Portfolio - <http://www.laurivaananen.com/>

Source - <https://github.com/laurivaananen/Portfolio>

- Built a portfolio for myself to showcase my projects
- Responsive layout made using good design practices taking accessibility into consideration

Education

University of Helsinki - *Bachelor's degree in computer science*

2018 - Expected graduation 2020
